

# etap *iLS* Intelligent Load Shedding

## Optimal Load Preservation

*for the*

## Mining Industry

### Protection Against Production Losses

Diverts power from non-essential processes first, keeping production rate up and running.

### Workforce Safety

Helps keep your most valuable resources safe by preserving power to critical safety gear.

### Lower Costs

Reduces the need for power reserve equipment and the fuel to power it.

### Real-Time Power Enterprise Solution

ILS is a fully integrated component of the ETAP Real-Time enterprise solution providing a comprehensive power platform to monitor, control, simulate, optimize, and automate the operation of your electrical power system.
