

etap *iLS* Intelligent Load Shedding

Optimal Load Preservation

for the

Oil & Gas Industry

Protection Against Production Losses

Diverts power from non-essential processes first, keeping production rate up and running.

Workforce Safety

Helps keep your most valuable resources safe by preserving power to critical safety gear.

Lower Costs

Reduces the need for power reserve equipment and the fuel to power it.

Real-Time Power Enterprise Solution

ILS is a fully integrated component of the ETAP Real-Time enterprise solution providing a comprehensive power platform to monitor, control, simulate, optimize, and automate the operation of your electrical power system.
