

## ETAP FAQ # 6

### ETAP Real-Time Communication Protocols

**Description:** Explanation of how ETAP Real-Time communicates with field metering devices.

**Version:** ETAP Real-Time 4.7

**Published:** July 24, 2002

ETAP Real-Time can communicate directly with metering devices that support OLE for Process Control (OPC) protocol. In addition, ETAP Real-Time OPC client can be setup to communicate with any device that supports standard networking protocols such as MMS, ModBus®, Net Beui, DNP, ICCP, IEC870, T103, NetDDE, UCA, IPX/SPX, and TCP/IP.
